BEMAS Integrates WiredCommute into PayDirect® System *Users Now Have New Option To Administer Commuter Benefits*

St. Louis, MO (June 28, 2010) — [BEMAS Software](#) has selected [WiredCommute](#)'s cutting-edge solution for commuter benefits for its clients, which will be seamlessly integrated into BEMAS's PayDirect software. This new capability complements the Evolution Benefits' prepaid card already integrated into the PayDirect System which provides instant access to pre-tax commuter funds at the point of purchase.

Supporting over 35 of the nation's premier benefit administrators, WiredCommute offers a customizable commuter benefit solution designed for Third Party Administrators (TPAs), payroll companies, and benefit card providers – as well as any benefit-related organization looking to provide private-labeled commuter benefits and program administration with nation-wide coverage and acceptance.

“We're excited to incorporate the WiredCommute solution into our PayDirect software and provide another value-added service to our customers,” said Steve Pownall, CEO of BEMAS Software. “Employee participants who take advantage of this pre-tax account benefit can save up to 40 percent off their current commuter costs.”

“PayDirect will now incorporate the functionality offered by WiredCommute and allow participants to benefit from both systems through a single sign-on member portal,” said Gerard Bridi, President & CEO USA at Edenred (formerly Accor Services). “We feel this agreement will be a win-win for all involved.”

Bridi continues, “TPAs and other benefit providers who use WiredCommute will be in full compliance with IRS regulations governing the commuter benefit, will no longer need to administer non-compliant reimbursement programs, and can offer clients an easy-

to-administer program, requiring only a single sign-on process from the benefit provider's site.”

BEMAS Software, Inc., an Evolution Benefits Company, is a provider of technology solutions for benefits administrators. We provide powerful, flexible and scalable benefits administration solutions that TPAs, insurance companies, brokers and employer partners rely on to keep pace with the changing landscape of benefits administration. For more information: www.bemassoftware.com.

Edenred USA is a leader in innovative employee benefits solutions and premier provider of national commuter benefit programs: Commuter Check, a nationwide commuter benefits program provider; and **WiredCommute**, a program for private labeled commuter benefits. Its mission is to make tax-free commuter benefits a staple in employee benefits packages throughout the American workplace – while helping protect the environment.
